

CHANGE UP!

Here's a fun game you can play.

The idea of the game is for players to change one letter in a word to form a new word. To play the game, do the following:

1. Place all the SCRABBLE® tiles face up on the table. Use the tiles to make the following word (Start with the words suggested. Then you may decide to try your own words): BLINK.
2. Player 1 replaces one letter in BLINK to form a new word. Player 1 keeps the tile that is removed. Suppose Player 1 replaced the B with a C. The word CLINK would result.
3. Player 2 then replaces one letter in the word CLINK to form a new word. Player 2 keeps the tile that he or she removed.
4. Play continues until players cannot form any new words. *Players calculate their scores by adding up the values of the words that they played as they play them.* The scores are recorded, the tiles are returned to the table and a new word is placed on the table.

**Try these words to start:
CLASSES, BOOKS, RANTS**
