WORDS ROCK!

For girls in grades 5-12

What has 100 tiles...225 squares...a multi-colored board...and millions of fans of all ages, backgrounds and locales? The answer, of course, is **SCRABBLE®** Brand Crossword Game, which took America by storm in the early 1950s-and has continued to grow in popularity.

It all began when in 1931 an out-of-work architect named Alfred Mosher Butts translated his life long love of crossword puzzles into a board game. After studying existing games, he realized that games fell into three categories: Number games like dice and bingo, move games such as chess and checkers, and word games like anagrams

Mr. Butts, attempting to create a game that would use both chance and skill, combined features of anagrams and the crossword puzzle-and called his new game "Criss Cross Words." Today the game is in over one hundred million households worldwide and about two million sets are sold each year. Starting in 1991, the National **SCRABBLE®** Association began the School **SCRABBLE®** Program. It is now in thousands of schools across the country and starting in 2007 used by Girl Scouts of the USA as a troop activity.

Players of all ages can use the game, and we encourage you to learn more about it. You can share the experience with your younger brother, your Grandmother or your best friend. As with most sports there are special events across the country where enthusiasts gather to play. One is the National School **SCRABBLE®** Championship where 100 teams of students in grades 5-8 gather to compete to see which team is the best. In May 2007, Girl Scouts AZ Cactus Pine Council sent the first troop to be represented at the National Championship.

Can you answer these numbers questions?
 - a) How many tiles are there in a *SCRABBLE* set?
 - b) What are the 4 highest point tiles? List them and their values.
 - c) The first play must cross the center pink star on the game board. Look for other pink squares and determine how you would score the first play?

4. The official word source for the **SCRABBLE** game is Merriam Webster's *Official Scrabble® Players Dictionary, Fourth Edition*. Its slang name is "OSPD4."

Proper nouns are not acceptable in **SCRABBLE** play. A proper noun has a first letter that always appears in upper case. *Example: Phoenix; the capitol of the State of Arizona.*

Many words that can be played look like proper nouns, but they are not capitalized because they have a second meaning.

- Look up the word **PHOENIX** and see if it has another meaning...and if it is acceptable in **SCRABBLE** game play.
- Look up your name and see if it is an acceptable word for the game. If so, what is its definition? For instance "JANE" is acceptable and is listed as: **JANE n pl.-S a girl or woman**
- Find words that are usually considered names and proper nouns, not including "jane", and make a list of them and their definitions.
